

DIPARTIMENTO  
DI INFORMATICA

SAPIENZA  
UNIVERSITÀ DI ROMA

**4 March 2019**

*Master of Science in Cybersecurity – Prof. Luigi V. Mancini*

# **CYBERSURE**

## **Cybersecurity at Sapienza University of Rome**

### **How Blockchains work and their implications on Cybersecurity**

**Speaker:** Simone Bronzini

**Affiliation:**

Blockchain Education Network Italia, <https://www.blockchainedu.net/>

**Abstract:**

This talk will be divided in two parts. The first part will explain the main properties of blockchain applications. During the second part, we will show how blockchain properties can have an impact on security and show some examples of past vulnerabilities suffered by blockchain-based systems.

**When:** March 4, 2019, from 16:15 to 18:15.

**Where:** Aula II, ground floor of the building "ex-Facoltà di Scienze Statistiche" in "Città Universitaria", Piazzale Aldo Moro, 5 (Rome).

Participation is **free**, however **registration is required** on **Eventbrite**:
